Hiking Swimming Traveling

SUMMARY

Passionate for sustainable architecture with a proven track record of project and BIM management. With 10 years of experience in this fields, I thrive in dynamic work environments that demand creative problem-solving and innovative design and sustainable solutions. My expertise includes Building Information Modeling (BIM) managing and energy efficiency in buildings (NZEB).

I am excited about projects that has social, environmental, and economical sustainable impact, and I am always seeking opportunities to collaborate on innovative projects and contribute to a dynamic team.

With a preference for a hybrid work model, I am particularly drawn to opportunities based in the Netherlands, while remaining open to exploring alternative arrangements that align with the project's goals and values.

- WORK EXPERIENCE
- 2017 present

Project manager + BIM manager at CR ESPASSOS (architecture, engineering and construction firm)

- specialist in industrial, logistic and retail buildings

- architecture design team coordinator

- BREEAM and PASSIVE HOUSE certification experience

- licensing process management

EDUCATION

2007 - 2013 **Master's degree** at Faculty of Architecture of the University of PORTO  
Álvaro Siza (1992 Pritzker) + Eduardo Souto Moura (2011 Pritzker) as teachers  
Final thesis about "Social housing renovation with controlled costs"

- TRAINING
- planned 2024

Energy Needs in Buildings by [Delft University of Technology](#)
- 2024

Zero-Energy Design by [Delft University of Technology](#)
- 2023

Energy efficiency in architecture by Portuguese Association of Architects
- 2022

Building energy performance + NZEB by Portuguese Association of Architects
- 2020

Building Information Modeling by buildingSMART International
- 2019

Autodesk Navisworks by Linsem Consulting
- 2018

Parametric design with Dynamo for Revit by University Institute of Lisbon
- 2016

Revit by Autodesk
